

Speak Up & Report

If you have a concern, no matter how small, report it so IMMAF can investigate.

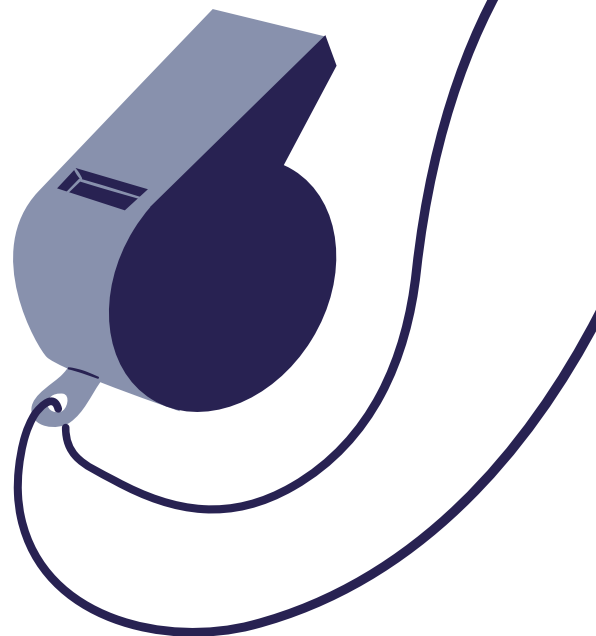

S P E A K U P

Help us to protect the clean athlete and the integrity of MMA. Every time someone speaks up with information on doping, IMMAF moves closer to a clean and fair sport for all.

IMMAF applauds the courage it requires to raise concern about cheating as we are aware that coming forward with sensitive information is a big decision. You have to put your trust in IMMAF as every concern is taken very seriously.

IMMAF encourages athletes to speak up and report if they have any concern or information, because only together can we make the sport safe and fair.

Whether you decide to open a secure mailbox or provide us with your contact information, everything is strictly confidential.

WHAT CAN BE REPORTED

You may report any alleged Anti-Doping Rule Violation or any act or omission that could undermine the fight against doping.

Anyone can report a doping misconduct. If you have detected, identified, witnessed or know of, or have reasonable grounds for suspecting that cheating has occurred, IMMAF encourages you to speak up.

CONFIDENTIALITY

Confidentiality is of utmost concern to IMMAF's Intelligence and Investigations Team. To ensure that the information you send IMMAF is private, here are some guidelines you can follow:

- File your report from your personal computer.
- Do not use a PC that is connected to a network/intranet.
- Choose whether or not you wish to leave your personal details; if not, you should also check that your personal details do not appear in the file properties (metadata) of any files you upload.
- Create a secure mailbox when you contact IMMAF via email and make sure to regularly check your inbox so IMMAF can communicate with you in case of follow-up questions.
