on the financial statements 2022

Report of the statutory auditor

on the limited statutory examination to the General Meeting of

International Mixed Martial Arts Federation (IMMAF) Grono

As statutory auditor, we have examined the financial statements (balance sheet, profit and loss statement and notes) of International Mixed Martial Arts Federation (IMMAF) for the year ended 31 December 2022.

These financial statements are the responsibility of the Association Board. Our responsibility is to perform a limited statutory examination on these financial statements. We confirm that we meet the licensing and independence requirements as stipulated by Swiss law.

We conducted our examination in accordance with the Swiss Standard on the Limited Statutory Examination. This standard requires that we plan and perform a limited statutory examination to identify material misstatements in the financial statements. A limited statutory examination consists primarily of inquiries of association personnel and analytical procedures as well as detailed tests of association documents as considered necessary in the circumstances. However, the testing of operational processes and the internal control system, as well as inquiries and further testing procedures to detect fraud or other legal violations, are not within the scope of this examination.

Based on our limited statutory examination, nothing has come to our attention that causes us to believe that the financial statements do not comply with Swiss law and the association's articles of incorporation.

We draw attention to note 7 in the financial statements which indicates that the Federation incurred a net excess of expenses over income of USD 187'077 during the year ended 31 December 2022 and, as of that date, the Federation's total liabilities exceeded its total assets by USD 1'412'712. The Executive Board has defined the necessary measures to increase the hosting rights and is confident about the Federation's ability to continue as a going concern.

Notes to the financial statements for the year ended December 31, 2022

7 Financial situation

International Mixed Martial Arts Federation have incurred a loss of \$187'077 for the financial year to 31.12.2022 and as of that date the total liabilities exceeded the total assets by \$1'412'712.

However, there are significant post-year end revenues in the form of championship fees as events are being scheduled as normal and hosting rights income regarding the African Open 2023 and Asia Open 2023. IMMAF has undertaken a thorough income and expenses analysis and modified the model with which championship events are run. This includes negotiating with host countries an arrangement whereby they cover the operational costs of the event but IMMAF will retain all participation fees for the forthcoming Youth World Championships 2023 and World Championship 2023. The European Championship 2023 will be run by the Italian MMA Federation and for the first time will incorporate the Youth European Championship and training camp. It is expected that this will result in the European Open achieving a profit and in this case, IMMAF will receive a share.

Furthermore, in 2023, the need for many of the Covid protocols, testing and associated expenditure will be removed.

Lastly, staffing levels have been reduced significantly and newly formed regional structures are expected to take on many of the financial responsibilities for continental championships that IMMAF in the past were liable for.
